TIRKS Migration

Due to the TIRKS migration January 18-21, all QCC Dedicated order entry systems will be "read only." Make a note that you will not be able to enter new orders during this time period. The Dublin order center plans to key as many orders as possible prior to the migration, as well as post migration. If an order is held for missing documentation, please respond as quickly as possible, so we can process as many orders as possible.

Referral SPIFF Extended for January!

The referral SPIFF of \$150 per unit has been extended through January for the following products:

- OneFlex Integrated Access
- Secure IP Promotion
- PRI
- DSS

SPIFF opportunity ends January 31, 2007, referral orders must have order numbers by February 20, 2007 in order to qualify.

QC Frame Tariff Reminder

Remember, if you are making changes to QC Frame Relay services that all applicable NRCs will apply per Tariff FCC No. 1. Please inform your customers impacted by this they will know what to expect.

Federal Universal Service Fund Rate Increase

The rate for single-line business customers increased from 9.1% to 9.7%, effective January 1, 2007. The rate for Centrex and multi-line business varies by state and is available online at www.qwest.com/FCCRates.

QCC Order Deadlines for January

For January, QCC orders for VoIP, IA, iQ, DIA and PRN, which depend on a customer interview and/or technical information and are originated by sales/sales support in MDS or Q.Central, must be complete and submitted by close of business on Monday, January 22, in order to allow us to meet Qwest's order acceptance date of Tuesday, January 23.

QCC Switched and Dedicated orders need to be submitted by close of business on Monday, January 29. Submitting an order by that date will enable us to key the orders and provide order numbers before month-end. If your QBPP sales support team must provide input or processing assistance, please allow additional time.

Please help us all meet these deadlines by cascading this message through your sales and support organizations today.

Q.Marketplace Booking Guideline Changes

With the new year comes changes to the way QBPP calculates values in the Q.Marketplace tool, in accordance with Qwest BMG booking guidelines. The following changes are effective January 2007:

- Conversion orders will no longer receive booking credit
 - Contract commitment will no longer be used for Switched and Dedicated voice
 - Widget values associated with Switched and Dedicated voice will change or may be removed
-

OMS Guideline Updates

The OMS Order Processing document has been updated to reflect some recent changes. To be sure your orders are processed correctly and ensure you receive proper compensation, please refer to the new OMS Order Processing Table found on Q.Partner (support/online tools/OMS Order Process Job Aid).

It is important that you following these guidelines when submitting your OMS requests.

In January 2007 we will begin random audits to ensure that these guidelines are being followed.

Please contact your CSM with any questions.

Changes in Service Manager Organization

QBPP is committed to giving individuals new opportunities and to focus our employees on driving value within our program. As a result the following changes will take place within the Service Manager Organization.

Effective immediately:

- W.D. Young, previously VoIP Service Manager (Eastern Region), will assume responsibility for the traditional product service management in the Eastern Region (for Partners who are supported by the Elmore, Glackin and Healy organizations).
 - T.J. Slattery, formerly traditional product service manager (Eastern Region), will assume responsibility for VoIP service management in the Eastern Region (for Partners who are supported by Elmore, Glackin and Healy.)
 - Assignments within the Western Region (for Partners who are supported by the Mindy Powers, and John Hogan organizations) will remain the same throughout 2007: Lewis Barnowski will continue as service manger for traditional products and services and Jim Lafferty will continue in the same role for VoIP products
